

# Access Greenheck product content without leaving Revit®!

## Save time with Greenheck's eCAPS® Bridge for Revit®.

The eCAPS® Bridge is an add-in that links Greenheck's online product selection tool (eCAPS®) directly to the Autodesk Revit® program.

### FEATURES:

- Quick library access to Level of Development (LOD) 200 Revit® content.
- Product performance and electrical shared parameters for scheduling provided with LOD 300 Revit® content.
- Access selections from saved eCAPS® jobs.
- Performs quick product reselections.
- Automates equipment schedule generation.

**Streamline your workflow, simplify product selection, system design and scheduling!**

THIS ADD-IN IS **FREE** TO DOWNLOAD AND USE. GET IT HERE:

**GREENHECK**

*Building Value in Air.*

# The eCAPS® Bridge for Revit® is easy to use.

Once installed, a “Greenheck” tab will be visible in Revit®:

## 1 PRODUCT SELECTIONS BY PERFORMANCE.

Users in Revit® can make Greenheck performance-based selections, download cut sheets, and insert or download Revit® content (LOD200 or 300) directly into your active Revit® project.

## 2 PRODUCT SELECTIONS BY MODEL.

The Revit® family for each model can either be downloaded or directly inserted into the active Revit® project.

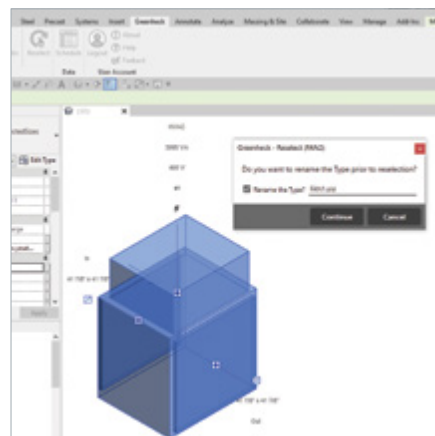

## 3 eCAPS® JOB BUTTON.

Grants access to product selections made to saved jobs in your eCAPS® account. These selections can be imported (LOD 300) into the active Revit® project or downloaded to your PC.

## 4 RESELECT.

Allows you to quickly make modifications to selected LOD300 families in the Revit® project.

## 5 SCHEDULE.

Automates equipment schedule generation.

Start using eCAPS® and the eCAPS® Bridge for Revit® today!
