

TO: Greenheck U.S. Mechanical Representatives
FROM: Matt Gaedtke
Segment Manager, Laboratory and Fume Exhaust Systems
DATE: April 4, 2018
SUBJECT: FumeJet® Madness Sales Contest

The FumeJet® Madness sales contest wrapped up March 31st. Congratulations to all participants! Your Amazon gift cards will be arriving soon via email.

In other exciting news, Team FumeJet continues to advance in the Greenheck 3-on-3 tournament. I'm proud to say we are in the championship game. No doubt that converting to the pre-engineered FumeJet has resulted in a championship run!

To help win our semi-final match, we introduced a new Danfoss variable frequency drive (VFD) with preprogrammed sensor packages – our competition did not see that coming. [Click here](#) to see how this VFD package sealed the win for us in the semi-final match.

Please enjoy the highlights by viewing our videos and utilizing the variety of FumeJet resources on RepNet.

Please contact Team FumeJet with any technical or promotional questions.
