SUBJECT: DS Direct Drive HVLS Ceiling Fan Receives
Consulting-Specifying Engineer
2019 Product of the Year Gold Award

Greenheck is excited to announce the DS direct drive HVLS ceiling fan has taken the Gold award in the Air Movement & Humidification category of CSE's Product of the Year program. As an award winner, the DS will be highlighted in the September 2019 issue of Consulting-Specifying Engineer. [Visit CSE magazine](#) to read more about the Product of the Year program.

Model DS direct drive, high volume low speed (HVLS) ceiling fans feature an optimized airfoil design for maximum efficiency and coverage area. Licensed to bear the AMCA Seal for Circulating Fan Performance, Model DS is available in eight sizes ranging from 8 to 24 feet in diameter with performance up to 243,000 cfm. With its unique direct drive motor, the DS is up to 20% more efficient than other HVLS fans and up to 10 dBA quieter. Greenheck DS fans include a 3.5 ft. drop tube with universal ceiling mount; factory-mounted, wired and programmed variable frequency drive (VFD); and plug-and-play wiring design for quick, easy installation.

The Axial and Inline team thanks our rep partners for their support and overall effectiveness in selling our HVLS fans. We appreciate your dedication and experience; and we look forward to winning market share with you for this innovative HVLS product.
