SUBJECT: Sidewall Mounted CUE/CUBE Replacing Models CW/CWB

As a reminder, the better performing wall mounted models CUE/CUBE are in the process of replacing the models CW and CWB which are being discontinued which started with CAPS® 4.30 (August 2019). Selections made in CAPS 4.29 for the CW/CWB are still eligible to be ordered, However, we will no longer accept orders for these models beginning with the CAPS 4.31 (December 2019) release. **If there are jobs outstanding with these models that have not been ordered, please do so before the end of November.** [Click here](#) to review the bulletin distributed April 2019, communicating the full change.

Don't forget! You need to select a mounting option when selecting a sidewall mounted CUE/CUBE. There are two options available, a curb or a wall bracket. Both can be selected on the *Accessories* tab in CAPS.

Model	Sizing	Fan Curves	Configuration
Construction Motor Accessories			
Electrical Accessories			
Disconnect Switch	Yes...		
Fan Accessories			
Sidewall Mounting	Yes		
Roof Curb	No		
Wall Bracket	Yes		
Curb Extension	No		
Hinged Curb Cap	N/A		

Wall Bracket

Curb

Forgot to order a mounting accessory? No problem, the wall bracket is available as a standalone option on the CAPS product tree. It is found under *Roof curbs and mounting accessories>Wall bracket for sidewall mounted CUE and CUBE*.

For more information on how to select the sidewall CUE/CUBE please [click here](#) or contact the Power Roof Ventilator group (PRV) at prvfans@greenheck.com or 1-800-984-8713.
