SUBJECT: DC-5 Direct Drive HVLS Ceiling Fan Receives
Consulting-Specifying Engineer
2020 Product of the Year Gold Award

Greenheck is excited to announce the DC-5 direct drive HVLS ceiling fan has taken the **Gold Award** in the Air Movement category of **CSE's Product of the Year** program. As an award winner, the DC will be highlighted in the December 2020 issue of Consulting-Specifying Engineer. Click [here](#) to read more about the Product of the Year program.

Model DC-5 is the newest product in Greenheck's innovative line of high volume, low speed (HVLS) ceiling fans. With up to 30% more airflow and 60% larger coverage areas than other products on the market, the DC-5 is the best performing HVLS fan in its class. The DC-5 is also 20% more efficient than other HVLS fans and up to 10 dBA quieter. Licensed to bear the AMCA Seal for Circulating Fan Performance, Model DC-5 is available in four sizes ranging from 8 to 14 feet in diameter with performance up to 55, 800 cfm.

Thank you for your continuous support and overall effectiveness in selling our HVLS fans. We appreciate your dedication and look forward to winning market share with you for this innovative HVLS product.
