

TO: Greenheck Mechanical Representatives
 FROM: Tyler Schilling, Sr. Manager Product Solutions,
 Kitchen Ventilation Systems
 DATE: February 1, 2021
 SUBJECT: Kitchen Ventilation Product Updates

Greenheck is committed to providing you with the products you need to succeed with kitchen ventilation projects. In doing so, we typically obsolete slow selling products or products that no longer meet market needs and provide you with new products to help you win the order. The new Greenheck kitchen controls launched in the CAPS® 4.33 release (August 2020) are prime examples.

Several products fit this criteria and will be obsoleted over the course of the next two CAPS releases (4.35 and 4.36 respectively). These include:

Product	Selectable in CAPS 4.35	Order in CAPS 4.35	Obsoleted in CAPS 4.35	Obsoleted in CAPS 4.36
Integral supply hoods				
Face supply	No	Yes - Previously selected jobs	No	Yes
Combination supply	No	Yes - Previously selected jobs	No	Yes
Short circuit	No	Yes - Previously selected jobs	No	Yes
Fluorescent lights	No	No ¹	No	Yes
Filters
