Segment Manager, HVLS Fans
DATE: July 26, 2021
SUBJECT: DC-5 HVLS Fan Receives 2021 Dealer Design Award

The accolades keep coming for Greenheck HVLS fans! We are excited to announce Greenheck was recognized for excellence in product design in the 18th annual Dealer Design Awards Program sponsored by *The Air Conditioning, Heating & Refrigeration News* magazine.

The DC-5 HVLS fan was the **Gold Award Winner** in the Ventilation Products category. Winning entries are featured in the July 26, 2021 issue of *The ACHR News*, which is distributed nationally to over 27,000 HVACR contractors, wholesalers and distributors, and other industry professionals.

Since their introduction, Greenheck HVLS fans have been recognized for excellence in product innovation, performance, and design. Recent awards include:

Engineered Systems' 2020
Commercial Comfort Product
of the Year Award

Greenheck HVLS fans rise above the rest with a lighter, sleeker and more powerful product design that quietly and efficiently moves air through any environment. Our HVLS fans:

- Deliver the largest coverage areas in the industry and provide 30% more airflow.
- Feature direct drive motors and factory-mounted and programmed variable frequency drives that are up to 20% more efficient and up to 10dBA quieter than gearbox-driven fans.
- Can be installed one to two hours faster due to the fan's lightweight design, unique plug-and-play wiring and universal ceiling mounts.

Thank you, our rep partners, for your continuous support in selling our HVLS fans. We appreciate your dedication and look forward to helping you BOOST your sales even more in the months ahead!
