

Bulletin: 38-21

TO: Greenheck Business Partners
FROM: Dean Ruplinger
Director, Kitchen Ventilation Systems Sales
DATE: August 26, 2021
SUBJECT: **KVS Price Adjustment Effective September 7, 2021**

Due to continued material price escalation, we are forced to implement a price increase affecting our kitchen ventilation systems (KVS) products. Stainless steel is in short supply, causing substantial price inflation. We also continue to experience price escalation on purchased parts across the KVS product offering.

Effective September 7, 2021, Greenheck will implement the following price adjustment:

Product	Multiplier Increase	Multiplier Category
Hoods and related accessories	7.0%	KV1
Controls, Fire Systems, PCU and UDS	1.5%	KV2, KV3, KV5, KV6, KV7, KV9, KV10

This price increase is included in a special CAPS® release via an upward multiplier adjustment. We appreciate your understanding of these adjustments and encourage you to review all existing open quotations and unreleased orders.

Please contact Greenheck to review immediately if you anticipate orders to be released or placed after the September 7, 2021 effective date.

As always, thank you for your efforts in selling KVS!
