

TO: Greenheck Business Partners
FROM: Dean Ruplinger
Director, Kitchen Ventilation Systems Sales
DATE: October 1, 2021
SUBJECT: **KVS Price Adjustment Effective November 8, 2021**

Due to continued material price escalation, we are forced to implement a price increase affecting our kitchen ventilation systems (KVS) products. Stainless steel availability is resulting in substantial price inflation. We also are experiencing significant price escalation for fire suppression system purchased parts and increased fire system field-installation costs.

Effective November 8, 2021, Greenheck will implement the following price adjustments:

Product	Multiplier Increase	Multiplier Categories
Hoods, PCU, UDS and Controls	5.0%	KV1, KV2, KV5, KV6, KV7, KV9, K10

Product	List Price Increase	Multiplier Categories
Fire Systems	9.0% (average)	KV3, K11

This price increase affecting both multipliers and list prices are included in a special November 8, 2021 CAPS® 4.36 release.

We appreciate your understanding of these adjustments and encourage you to review all existing open quotations and unreleased orders for the price increase impact.

Please contact Greenheck to review immediately if you anticipate orders to be released or placed after the November 8, 2021 effective date.

As always, thank you for your efforts in selling KVS!
