SUBJECT: Grease Application Now Available through SDR for Model CSB

We are pleased to announce that a grease application selection is now available for Model CSB through a special design request (SDR). We are working to add grease application as a standard selection in the CAPS® 4.35 release this April.

Follow the procedure below to ensure a quick turnaround on the SDR request.

In the SDR pop up window in CAPS, please indicate “CSB grease application” in the factory description field.

Model CSB-315-B1-1.5KW Mfg. Loc. India Best Available Extended
