SUBJECT: New Wall Axial Fan Offering – Model AER-M

Greenheck India is pleased to introduce a new wall axial fan, model AER-M. Model AER-M is a direct drive commercial grade fan combining quality and reliability into an efficient design with simplified maintenance and installation, saving you time and money.

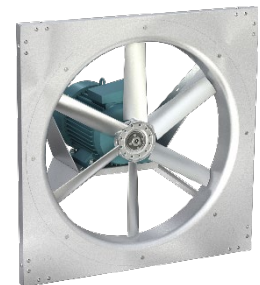

Providing a clean, comfortable, and safe workplace requires a broad range of ventilation products. AER-M's efficiently ventilate factories, warehouses, data centers, car parks, distribution centers, and other industrial environments. They are suitable for clean air applications, including exhaust and supply.

Additionally, each AER-M fan includes a minimum 1-year warranty and is factory tested. Extended warranties are available for purchase.

Four sizes from 500 to 900 mm are available with performance capabilities to 49,390 cmh (29,070 cfm).

For more information on Model AER-M [click here](#) to view the new product flyer.

Contact your regional salesperson or email GIN Customer Service at GIN.Service@greenheck.com with questions.
