SUBJECT: Extended Lead Time on Select Honeywell Actuators

We continue to take steps to minimize the impact of worldwide shortages affecting you and your customers while committing ourselves to adhere to our delivery times.

Due to the ongoing shortages, Honeywell has been facing difficulties in maintaining supplies of 20 NM actuators for several weeks. As a result, we need to increase our lead time for dampers with Honeywell actuators to 8-9 weeks ex-factory. These actuators are used on our FSD, SMD, VCD dampers. Below are the affected part numbers.

Part #	Actuator Model
383255	MS8120F1200/B
382824	MS8120F1002/B
383254	MS4620F1203/B
382825	MS4620F1005/B

We are hopeful the supply chain will improve soon with Honeywell returning to their normal lead times. We will keep you notified as the situation changes.

Thank you in advance for your cooperation and understanding.
