 SUBJECT: Model CSB Size Expansion and AMCA Update

We are pleased to announce an expanded grease application selection on model CSB in the August CAPS 4.36 release. The expansion includes three additional fan sizes 800, 900 and 1000mm available in steel wheel only.

11 Sizes: 315 to 1000mm **Please note backward inclined wheels are available in aluminum (315-710mm) and steel (800-1000mm).*

Performance: Volumes up to 42,500 cmh (25,000 cfm) and total pressure of 1500 Pa (6 in. wg)

Additionally, Model CSB sizes 315-710mm are now licensed to bear the AMCA FEI seal. FEI values are visible in the CAPS sizing grid. See reference below.

Model: CSB-400-B1-2.2KW Mfg. Loc.: India

Model Sizing Fan Curves Configuration SDRs / Notes AMCA Drawings

Basic inputs (required)

Volume (CFM) 2,500 Airstream Temp. (F) 70 Elevation (ft) 1,834
 External SP (in. wg) 4 Startup Temp. (F) 70
