SUBJECT: New Roof Exhaust Fan Offering – Model RV-D

Greenheck India is pleased to introduce the model RV-D direct drive centrifugal exhaust fan. This power roof ventilator offers a compact, lightweight design. The RV-D has a much lower profile than traditional tubular exhaust fans for a more aesthetically pleasing roof deck. Additional benefits include low operating costs, low maintenance needs, and our standard 1-year warranty with extended warranty options available.

The RV-D is suitable for a variety of applications ranging from clean air exhaust to fumes and odors from bathrooms or light industrial applications. The RV-D can also be used for emergency smoke exhaust applications! Consult the factory for more information.

Sizes: 315, 400, 500 and 630mm

Performance: Up to 22,170 cmh (13,049 cfm)

Construction: Galvanized with aluminum wheel options
