SUBJECT: Select Louver Model Obsolescence

Greenheck is committed to ensuring you have the louver products you need to succeed in your markets. With this commitment, we will obsolete the historically low sales volume products to allow for greater manufacturing capacity of higher volume, core louver products.

These models will no longer be selectable on new CAPS jobs, however; selections made from previous CAPS versions will convert and may be ordered until the release of CAPS 4.39 in August 2022.
