

Bulletin: 27-22

TO: All Greenheck Representatives  
FROM: Craig Kuski,  
Application Engineer Specialist II, Ceiling Exhaust Fans  
DATE: May 23, 2022  
SUBJECT: SP-80-VG and SP-110-VG Stock Situation

In mid-March of this year, we announced the [Obsolescence of Select Ceiling Exhaust Fan Models](#). The SP-80-VG and SP-110-VG models are now permanently out of stock.

All SP-80-VG orders will be automatically converted to fan model SP-AP0511W.

SP-110-VG orders entered as of 5/15/2022 will also be converted to fan model SP-AP0511W.

The SP-AP0511W is an improved fan model with a lower list price and expanded performance capabilities. You will be contacted regarding this change if any of your sales orders are impacted. No action is required on your behalf.

Please contact me at [craig.kuski@greenheck.com](mailto:craig.kuski@greenheck.com) or 715-841-8519 with questions regarding this change or help with converting pending jobs.
