

Bulletin: 30-22

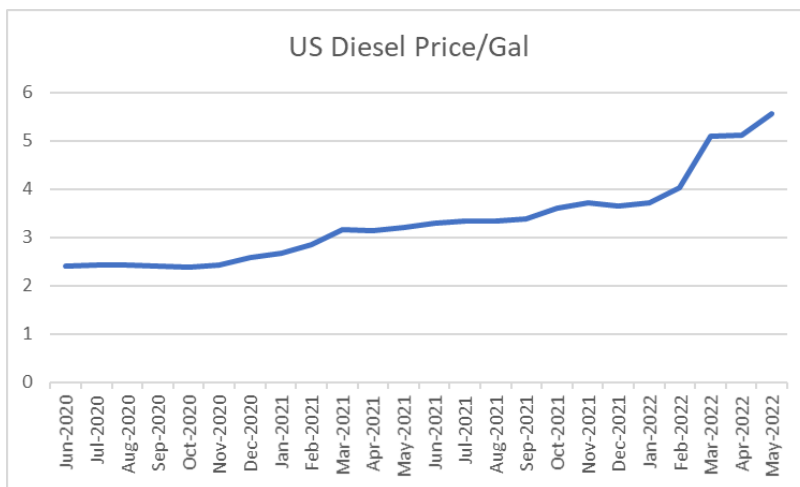

TO: Greenheck Representative Partners
FROM: Tim Kilgore
President, Sales
DATE: June 22, 2022
SUBJECT: **Fuel Surcharge**

The rise in diesel fuel and gasoline prices continues with no slowdown in sight. As a result, Greenheck will implement a temporary 1.25% fuel surcharge on all shipments effective July 5, 2022. We regret having to take this action, but the increased cost pressure from rising fuel cost is beyond our ability to absorb. We are committed to completely rescinding this fuel surcharge when diesel costs per gallon return to historical levels.

You can follow the US Government diesel index website at:
