

Bulletin: 10-23

FROM: Bryan Magnuson
Product Manager, Ceiling Exhaust

DATE: February 28, 2023

SUBJECT: Model SP/CSP Product Line Simplification

Effective with the April CAPS® 4.41 release, select configurations and sizes for Models SP, CSP, and CBF will be eliminated. Simplification of the product line will allow us to maintain our competitive position and lead times, and more efficiently produce products. Products that are being eliminated will fall into two categories:

Category 1 – No new selections of any configuration will be allowed effective in CAPS 4.41. Existing CAPS files can continue to be ordered until the CAPS 4.42 release in August.

CSP-B110
CSP-B150
CSP-B200
SP-L50
SP-L80
CBF-205

Category 2 – Effective with the release of CAPS 4.41 no new orders will be allowed.

Model	Alternate
SP-A50	SP-A70
SP-A190	SP-A200
SP-B200 (277V)	SP-B200 w/Transformer or SP-A390-VG
