

Bulletin: 24-23

TO: Greenheck Business Partners
FROM: Matt Spink
Sr. Vice President – Mechanical Channel
DATE: June 27, 2023
SUBJECT: **Select List Price Adjustments Effective August 7, 2023**

Greenheck business units and our supply team partners continue to hold the line and avoid an across-the-board price increase. However, we are facing individual and accessory price changes that will be addressed through select list price adjustments in our August 7th CAPS® release. These list price adjustments will impact only a minor portion of our portfolio and include decreases as well as increases as we direct the market to redesigned and more efficient products.

We appreciate your understanding of these list price adjustments on this small segment of our products.

A full listing of these list price adjustments can be found below and on page 2 of this bulletin. If you anticipate orders being placed after the August 7th effective date, please contact Greenheck for necessary repricing.

As always, thank you for your efforts and good selling!

Matt
