SUBJECT: India Damper Selections in CAPS® 4.41

Please be informed that some recent projects regarding the reconfiguration of products on the CAPS platform are being implemented. During this reconfiguration process, the selection of India dampers is impacted.

Until CAPS 4.40, when you used to select the damper model under the product selection tab, you had the option to change the manufacturing location (India or the United States).

Effective with the CAPS 4.41.1003 release, when you want to select GIN dampers, you will need to select the damper models with an asterisk (\*) in front of the model's name. The screenshot is shown below for your quick reference.

Description	Model
Integral 300 mm 0.9 mm sleeve	*FD-150X300
Integral 406 mm 0.9 mm sleeve	*FD-150X16
Integral 400 mm 0.9 mm sleeve	*FD-150X400
⊕ Curtain 3 hour	
⊖ Combination fire smoke	
⊖ Corridor	
⊖ Diffuser mount, actuator on diffuser side	
Class I leakage	*CFSD-211-1
⊕ Diffuser mount, actuator opposite diffuser side	
⊕ Ducted mount	
⊕ Grille access	
⊖ Traditional	
⊖ 1 1/2 hour	
⊖ 3V blade, galvanized steel, class I	*FSD-211
⊖ 3V Blade, galvanized steel, modulating, class I	*FSD-211M
⊖ 3V blade, galvanized steel, class II	*FSD-212
⊖ 3V blade, galvanized steel, class III	*FSD-213
⊖ Airfoil blade, galvanized steel, class I	*FSD-311
⊖ Airfoil blade, galvanized steel, modulating, class I	*FSD-311M

Please note that the above change is not applicable to the selection of volume control damper models (VCD, MBD models). Volume control dampers can be selected the same way as before.

We appreciate your understanding in this regard.

As always, thanks for your efforts, good luck and good selling!

Regards,  
Mukul
