

BULLETIN

FEBRUARY 12, 2024 | BULLETIN 6-24

TO: All Greenheck Representatives
FROM: Bryan Magnuson
Product Manager, Ceiling & Bath Fans
SUBJECT: SP/CSP Consolidation

Effective with the April CAPS® 4.44 release, select configurations and sizes for Models SP and CSP will be eliminated. Simplification of the product line will allow us to maintain our competitive position and lead times, and more efficiently produce products. Products and options that are being eliminated are listed below:

- SP-A1410
- 220V to 240V PSC motor option for SP-A110 and SP-A390
- Whole House Ventilation for SP-B80 and SP-B110
- Push Button Minimum Ventilation Controller

All configurations listed below are being obsoleted for models: SP-A70, SP-A90, SP-A110 and SP-A125. This applies to new job files created in CAPS® 4.44; orders from existing CAPS files will be accepted until the August CAPS® release.

- Grille Mounted Motion Sensor
- Integrated Dehumidistat
- Combination Motion Sensor/Dehumidistat
- Integrated Speed Control
- Mounted Ceiling Radiation Damper (CRD)
- Aluminum or Galvanized Wheels
- Convertible Fan (SP-A110 and SP-A125 only)

We encourage you to review active quotes/projects and communicate these changes to your customers.

We will continue to support replacement parts and provide alternate options when appropriate. We appreciate your partnership as we improve and simplify our product line.

If you have any additional questions or concerns regarding a specific project, contact ceilingexhaustfans@greenheck.com or call 1-800-984-8713 (option 1).
