

BULLETIN

March 25, 2024

TO: Greenheck Representatives
FROM: Ed Merewether
Segment Product Manager—Grilles, Registers, Diffusers
SUBJECT: XG-AFL Formations Model Family Lead Time Improvement

We are pleased to inform you that we have made significant progress in addressing material shortages, which has allowed us to improve the standard lead time for our **XG-AFL series of linear diffusers** within the **Formations family**.

Effective immediately, the lead time for all products in the Formations family with **1-inch, 1.5-inch, or 2-inch slot widths** will be **reverted to our standard 3 weeks from the date of order release**. We understand the importance of timely delivery, and this adjustment aims to streamline the ordering process for your convenience.

Please note that **Quick Builds** on the Formations Series will continue to require **prior review**.

The affected models include:

- XG-AFL
- XG-AFLC
- XG-AFLMC
- XG-AFLTS
- XG-AFL-TZ

We remain committed to minimizing any lead time extensions. We will continue to closely monitor the material situation and keep you informed of any developments.

Thank you for your continued partnership, and please feel free to reach out if you have any further inquiries or require additional assistance.
