

Kitchen Ventilation Equipment:

The quoted equipment is based on the information provided with the quote request. Verify all details on Greenheck drawings prior to placing an order.

****See your factory representative for approximate shipping lead time after receipt of approved drawings for standard equipment.****

****Utility Distributions Systems, special designed hoods, and large projects consisting of more than ten hoods are not included in the lead time above.****

(For lead times on Utility Distribution Systems and special designed hoods, please consult your factory representative.)

Note: Freight is FOB Factory, Freight Prepaid
Prices include regular ground freight.
Prices are in effect for 90 days.

- Payment of any applicable Federal, State, or local taxes shall be the responsibility of the buyer in addition to the quoted price of products.
- Ductwork is provided by others. Installing contractor is responsible for hanging the hoods to measure 6'-6" AFF to bottom edge of hood and to ensure a 10' separation between exhaust fan outlet and supply fan inlet (NFPA-96).
- Quoted prices are firm when shipment is specified within 90 days from the date of this quotation. After 90 days, we guarantee prices not to increase more than 1.5% per month. Maximum protection 6 months from this date.
