louver.paint@greenheck.com

**Please note, the entire louver scope of the order will not be released for scheduling or production until after the custom color match is approved by the customer. The average lead-time for custom color match processing of in-house blendable colors is 1-2 weeks upon receipt of a referenceable color code or custom color chip. On the rare occasion the requested custom color match is not in-house blendable the average lead-time for custom color match processing is 2-3 weeks.*
