| 5 FJ-M Fume Exhaust Fan | 10 Make-Up Air with APM-M Plenum Fan |

Today's hospital ventilation needs are more dynamic and demanding than ever, with increased focus on energy efficiency and sustainable building design concepts. Patients, staff, and visitors all rely upon an effective ventilation system for air quality, comfort, and emergency safety.

Greenheck manufactures quality ventilation products with life-safety certification. This commitment provides the confidence that buildings will operate as expected when needed. Only an integrated HVAC system can provide reliability and performance for an entire medical facility having public areas, offices, surgery suites, patient rooms, laboratories, kitchens, and cafeterias.
