

Vari-Green® Drive

Command Performance

A factory-mounted, pre-programmed variable frequency drive!

Greenheck — the easiest company to do business with — presents the VGD-100. The latest in Vari-Green® variable speed technology.

Greenheck's Vari-Green Drive is designed to meet the challenges faced in achieving the best performance possible in today's commercial ventilation systems.

Make speed control easy with features and benefits only available when using the new Vari-Green Drive by Greenheck!
